

Petsfolio Client Application

1. Introduction

1.1 Overview

The **Petsfolio Client Application** is a comprehensive mobile platform designed to simplify and enhance pet care management for pet parents. The application provides a convenient, secure, and user-friendly experience, allowing users to access a wide range of pet care services from a single platform.

Through the Petsfolio Client App, pet parents can register themselves and their pets, discover verified service providers, book pet care services, track ongoing services, make secure payments, manage their wallet, and maintain complete records of their pets and service history.

The application acts as a bridge between pet parents and professional service providers, ensuring transparency, convenience, reliability, and high-quality pet care services.

1.2 Purpose

The purpose of the Petsfolio Client App is to provide a digital ecosystem where pet parents can conveniently manage every aspect of their pet's care without the need to search for multiple service providers individually.

The application enables users to:

- Register and manage multiple pets.
 - Book trusted and verified pet care professionals.
 - Schedule services at their preferred date and time.
 - Track booking status in real time.
 - Communicate with service providers.
 - Make secure online payments.
 - Manage wallet transactions.
 - Receive booking updates and notifications.
 - Earn loyalty rewards.
 - Access pet-related community features.
 - Maintain complete service history.
-

1.3 Objectives

The primary objectives of the Petsfolio Client App are:

- Provide a seamless and user-friendly booking experience.
 - Connect pet parents with verified service providers.
 - Ensure secure and transparent payment processing.
 - Deliver real-time booking updates and notifications.
 - Improve convenience through digital pet management.
 - Build trust by offering verified professionals and transparent reviews.
 - Encourage customer retention through loyalty programs and wallet benefits.
-

1.4 Target Users

The application is designed for:

- Pet Owners
 - Dog Owners
 - Cat Owners
 - First-Time Pet Parents
 - Families with Multiple Pets
 - Individuals seeking professional pet care services
-

1.5 Key Features

The Petsfolio Client App includes the following core features:

- User Registration and Login
- OTP-Based Authentication
- Pet Profile Management
- Home Dashboard
- Dog Walking Booking
- Grooming Service Booking
- Pet Training Booking
- Pet Sitting Booking
- Veterinary Consultation
- Pet Insurance
- Wallet Management
- Online Payments
- Booking History
- Live Booking Tracking
- Notifications
- Loyalty Rewards
- Community Platform
- Ratings and Reviews

- Customer Support
 - Profile and Settings
-

1.6 Benefits

Using the Petsfolio Client App offers several advantages:

- One platform for all pet care needs.
 - Easy and quick booking process.
 - Verified and trusted service providers.
 - Safe and secure online payments.
 - Real-time booking updates.
 - Digital wallet for faster transactions.
 - Reward points and loyalty benefits.
 - Improved transparency through ratings and reviews.
 - Better management of pet health and service records.
 - Enhanced customer support experience.
-

1.7 Scope of the Application

The Petsfolio Client App covers the complete lifecycle of pet care services, from user registration to service completion.

The application allows users to:

- Create and manage personal accounts.
 - Add and maintain pet information.
 - Browse available pet care services.
 - Book services based on location and availability.
 - Make payments using supported payment methods.
 - Track service progress.
 - View completed bookings and invoices.
 - Manage wallet balance and transaction history.
 - Receive important alerts and notifications.
 - Rate completed services.
 - Access customer support whenever required.
-

1.8 Business Value

The Petsfolio Client App enhances the overall pet care experience by providing a centralized digital platform that improves customer convenience, increases service accessibility, builds

trust through verified professionals, and strengthens long-term customer engagement through rewards, transparency, and seamless service management.

Pet Parent Registration

A new user can register in the Petsfolio Client App using a valid mobile number. The application validates the entered mobile number and sends a One-Time Password (OTP) for verification. OTP verification is mandatory to authenticate the user before account creation.

During the registration process, users are provided with access to the **Terms & Conditions** and **Privacy Policy** through dedicated links on the registration screen. Users must accept these policies to proceed with the registration.

Once the OTP is successfully verified, the user is redirected to the **Profile Completion** screen to provide the required details, including **Full Name**, **Email Address**, and **Profile Photo**. The full name is mandatory, while the email address and profile photo help complete the user's profile.

After submitting the required information, the user's account is created successfully, and they are redirected to the **Petsfolio Home Page**, where they can access all available features and services within the application.

Add Pet

The **Add Pet** feature allows pet parents to register their pets in the Petsfolio Client App by providing the required pet details. Users can add either a **Dog** or **Cat** by entering information such as the pet's **Name**, **Age**, **Breed**, **Gender**, and **Profile Photo**.

Pets can be added through two different ways within the application. The first option is through the **Profile** section, where users can add and manage their pet details at any time. The second option is during the **service booking process**, where users who have not yet added a pet can register a new pet while selecting a service.

Once the pet is successfully added, it is saved to the user's account and can be selected for all future service bookings without requiring the details to be entered again.

Walking Service (Regular)

The **Walking Service** enables pet parents to book professional dog walking services based on their pet's daily exercise requirements. The service is categorized into **Regular** and **Elite** service options, allowing users to choose the package that best suits their needs.

Under the **Regular** service, users can select the preferred walking frequency, including **Once a Day**

Twice a Day

Thrice a Day.

Users can also choose the walk duration of either

30 Minutes or **60 Minutes**

for each session.

The application offers multiple package options based on the required service duration, including **Express Package (3 Days)**, **Short-Term Package (7 Days)**, **Mid-Term Package (15 Days)**, and **Long-Term Package (30 Days)**.

Users can further customize their booking by selecting the preferred schedule as either **Weekdays** or **All Days**, choosing the **Service Start Date**, and specifying their **Preferred Service Time** for the walks.

Additional service enhancements are available through optional add-ons, including **Poo Picking**, **Paw Cleaning**, and **Combing**. These add-ons can be selected during the booking process to provide extra care for the pet based on the owner's preferences.

Service Provider Quotation

Once the walking service request is submitted, it is shared with **nearby eligible service providers** based on the selected service location and availability. Interested service providers can review the booking request and submit their quotations for the requested service.

The pet parent can view and compare all received quotations before making a booking decision. Each quotation includes the **service cost**, along with the service provider's details to help users make an informed choice.

After reviewing the available quotations, the pet parent can select the preferred service provider and proceed with the booking and payment process.

Active Service

Once the pet parent confirms the booking, the service is displayed in the **Active Services** section on the Home Page. From this section, users can view the booking details, track the walk status in real time, access the assigned service provider's profile, and review complete service information, including the selected package, schedule, and booking details.

Extend Service

The **Extend Service** feature allows pet parents to continue an existing walking service without creating a new booking. Users can extend the service by selecting the preferred package, service duration, and preferred timings.

After the extension request is submitted, it is sent directly to the assigned service provider for approval. Until the service provider responds, the extension request is displayed with a **Pending** status. Once the service provider accepts the request, the status changes to **Accepted**.

After the extension request is accepted, the pet parent can proceed with the payment. Upon successful payment, the extended booking is confirmed, and the updated service schedule is reflected in the active booking details.

Replace Walker

The **Replace Walker** feature allows pet parents to request a new service provider for an active walking service if they are not satisfied with the assigned walker. This option can be used for reasons such as the walker not attending the scheduled walks regularly, poor punctuality, unprofessional behavior, or any other service-related concerns.

Once the replacement request is submitted, the Petsfolio team reviews the request and assigns another suitable and available service provider to continue the remaining service.

Cancel Service

The **Cancel Service** feature allows pet parents to cancel an active or upcoming walking service whenever required. Users can submit a cancellation request by selecting the cancellation option and providing a reason, if applicable. The cancellation is processed according to the platform's cancellation policy, and any applicable refund or wallet adjustment is handled based on the booking terms and conditions.

Walking Service – Frequently Asked Questions (FAQs)

1. What is the Walking Service offered by Petsfolio?

Answer:

Petsfolio Walking Service connects pet parents with verified professional dog walkers who

provide safe, reliable, and scheduled walks based on your pet's exercise needs. Customers can choose their preferred package, schedule, duration, and service provider.

2. What is the difference between Regular and Elite Walking Services?

Answer:

Regular Walking Service offers standard dog walking by verified service providers, while Elite Walking Service provides a premium experience with highly experienced walkers and additional care features, depending on availability.

3. How do I book a walking service for my pet?

Answer:

Open the Petsfolio app and select Walking Service. Choose your pet, select the preferred service type, walking frequency, duration, package, schedule, and preferred start date. Submit your request, compare quotations received from nearby service providers, select your preferred provider, and complete the payment.

Download the Petsfolio App:

- Android (Google Play):

-

4. Can I book a walk for more than one pet?

Answer:

Yes. You can book walking services for multiple eligible pets. Each pet should be registered in your Petsfolio account before booking.

5. Which pets are eligible for the Walking Service?

Answer:

Currently, the Walking Service is available only for dogs that are registered in the Petsfolio application.

6. What walking frequencies are available?

Answer:

You can choose from Once a Day, Twice a Day, or Thrice a Day based on your pet's daily exercise requirements.

7. What walk durations can I choose from?

Answer:

Walking sessions are available in two duration options: 30 Minutes and 60 Minutes.

8. What package options are available for Walking Services?

Answer:

Petsfolio offers multiple package options including 3-Day, 7-Day, 15-Day, and 30-Day walking packages.

9. What add-on services are available with the Walking Service?

Answer:

Optional add-on services include Poo Picking, Paw Cleaning, and Combing. These can be selected during the booking process.

10. Can I add or remove add-ons after booking?

Answer:

Add-ons are selected during booking. Any modifications after confirmation depend on the booking status and service provider's approval.

11. How is my walking request shared with service providers?

Answer:

Your booking request is automatically shared with nearby verified service providers based on your selected location and service availability.

12. How do service providers send quotations?

Answer:

Interested service providers review your request and submit quotations through the Petsfolio platform. You can compare all received quotations before making your decision.

13. What information is available in a service provider's quotation?

Answer:

Each quotation includes the service cost, provider profile, customer ratings, completed service history, verification status, and other relevant information to help you choose the best service provider.

14. How can I compare multiple quotations?

Answer:

The application displays all received quotations in one place, allowing you to compare pricing, ratings, experience, and provider details before confirming your booking.

15. How do I choose a service provider?

Answer:

Review the quotations, compare the providers based on ratings, experience, verification status, and pricing, then select the service provider that best meets your requirements.

16. When will my booking appear under Active Services?

Answer:

Your booking will appear in the Active Services section after you select a service provider and successfully complete the payment.

17. How can I track my pet's walk?

Answer:

You can monitor your active walking service from the Active Services section, where the current booking status and service progress are displayed.

18. Can I view the assigned walker's profile and service details?

Answer:

Yes. The Active Services section provides access to the assigned walker's profile, booking details, selected package, schedule, and service information.

19. Can I extend my existing walking service?

Answer:

Yes. You can request an extension for an existing walking service without creating a new booking.

20. How do I request a service extension?

Answer:

Open your active booking, select the Extend Service option, choose the preferred package and schedule, and submit the request to the assigned service provider.

21. What happens after I submit an extension request?

Answer:

Your extension request is sent to the assigned service provider for approval. Once accepted, you can complete the payment to confirm the extended service.

22. What does the Pending status mean for an extension request?

Answer:

Pending indicates that your extension request has been submitted successfully and is awaiting the service provider's response.

23. Can I replace my assigned walker?

Answer:

Yes. If you are not satisfied with your assigned walker, you can submit a replacement request through the application.

24. What are the reasons for requesting a walker replacement?

Answer:

You may request a replacement if the walker is consistently late, misses scheduled walks, behaves unprofessionally, or if you have other valid service-related concerns.

25. How is a replacement walker assigned?

Answer:

The Petsfolio support team reviews your request and assigns another suitable verified service provider based on availability.

26. Can I cancel my walking service?

Answer:

Yes. You can cancel an upcoming or active walking service from the Active Services section by submitting a cancellation request.

27. Will I receive a refund if I cancel my booking?

Answer:

Refund eligibility depends on the Petsfolio cancellation policy and the stage of the booking. Any applicable refund or wallet adjustment will be processed accordingly.

28. What should I do if my walker does not arrive on time?

Answer:

You should first contact the assigned service provider through the application. If the issue is not resolved, contact Petsfolio Customer Support for immediate assistance.

29. How do I report an issue with the walking service?

Answer:

You can report service-related issues through the booking details page or by contacting Petsfolio Customer Support. The support team will investigate and resolve the issue as quickly as possible.

30. How will I know if my booking or extension request has been accepted?

Answer:

You will receive an in-app notification whenever your booking or extension request is accepted. The booking status will also be updated in the Active Services section.

Elite Walking Service(premium)

The **Elite Walking Service** is a premium dog walking service designed for pet parents who prefer enhanced care and exclusive benefits. This service is provided by **Petsfolio Certified and Verified Service Providers**, ensuring a high standard of professionalism and reliability.

The Elite service includes **24/7 customer support, priority matching with the most suitable service provider** based on the pet's requirements, and complimentary add-on services such as **Combing** and **Paw Cleaning**. These included benefits make the Elite service a premium offering compared to the Regular Walking Service.

Users can choose the preferred walking frequency, including

Once a Day,

Twice a Day,

or **Thrice a Day,**

with walk duration options of **30 Minutes** or **60 Minutes**.

The Elite service offers the following package options:

- **Paw Start** – 30 Days
- **Paw Prime** – 60 Days
- **Paw Elite** – 180 Days
- **Paw Royal** – 365 Days

The service can be scheduled for **Weekdays** or **All Days**, depending on the user's preference.

The **Combing** and **Paw Cleaning** add-ons are included with every Elite package at no additional cost. Users who require additional services can also select **Poo Picking** as an optional paid add-on.

After selecting the preferred package, frequency, walk duration, schedule, and add-ons, the user confirms the service address and proceeds to the **Payment** page to complete the booking.
